Unless specifically authorized by the permit, the Permittee shall not alter the existing drainage pattern or the existing flow of drainage water. All disturbed portions of the highway, including slopes and all appurtenances and structures such as guard rail or drain pipes, shall be restored by the Permittee to a condition at least equal to that which existed before the start of any work authorized by the permit. This includes providing appropriate end treatments on guard rail systems where existing guard rail is being broken by a driveway.

The Permittee covenants and agrees to fully indemnify and save harmless the Township of West Earl, and its agents, employees and officials, with respect to any and all claims or demands, including but not limited to reasonable engineer's fees and attorney's fees, which may be brought against the Township, or its agents, employees and officials, regardless of whether such claims are successful, concerning the issuance of this Permit and for damage or injury occurring to any person, persons, or property through or in consequence of any act or omission of anyone working on the construction.

In the event of failure or neglect by the Permittee to perform and comply with the Permit, the West Earl Township Road Superintendent may revoke and annul the Permit and order and direct the Permittee to restore the right-of-way to its former condition. This Permit is based upon the facts stated and the representations made in the Application. This Permit may be revoked if it has been issued in error or if issuance was based upon any misrepresentation or errors contained in the Application or otherwise made by Permittee.
